AVALANCHE PORTABLE EVAPORATIVE COOLER

The Avalanche is the most powerful, flexible portable air conditioning unit available. Whether your application is for a computer suite, offices, hospitals, portable buildings or hospitality the Avalanche delivers 6.7 kW cooling all off a standard 13 amp supply.

With the option of using up to 30 metres of water line it is supremely flexible ensuring it can go into almost any application.

The Avalanche is designed using a self contained chilled water system. The water circulates through a water cooled condenser where the heat is absorbed and then is pumped through the water lines to the outdoor unit where the water is cooled. The cooled water is then pumped back through the flexible lines to the indoor unit and the process starts again.

Features

- The most versatile portable air conditioning unit on the market
- Offering a solution to almost any application
- Site the indoor unit 30 metres from the outdoor unit
- Quick connect couplings on water lines
- 100% Effective cooling
- Easy installation, only requires 13 amp plug

Technical Data

Cooling Capacity	6.7 kW / 23000 Btu/hr
Suitable Area	55 m ²
Operating Range	10 - 35°C
Noise Rating	49 dBa
Line Length	Up to 30m
Line Diameter	50 mm
Tank Capacity	No tank
Current	12 A
Power	2700 W
Voltage	240 V
Main Unit Dimensions w x h x d	82 x 103 x 36 cm
Unit Weight	86 kg

BLIZZARD PORTABLE EVAPORATIVE COOLER

The Blizzard is one of the most powerful hose type units in the market, delivering 25,000 Btu/hr whilst still working off a 13 amp supply.

Built in Italy the Blizzard is manufactured using the most up to date materials and designed to work with up to 9 metres of exhaust ducting. Simple in operation the Blizzard is suitable for computer rooms, open plan offices, factories and any application where large amounts of cooling is required.

Some of the other features include a 15 litre water container for extra continuous use, water tank full indicator, low and high pressure warning indicators. At 55dba the Blizzard is one of the quietest spot coolers in the market place.

Features

- Large spot cooler
- 2 Speed fan motor
- Works with up to 9m exhaust hose
- 15 Litre water container
- Thermostatically controlled
- Low and high pressure switch
- Easy installation, only requires 13 amp plug

Technical Data

Cooling Capacity	7.3 kW / 25000 Btu/hr
Suitable Area	60 m ²
Operating Range	15 - 35°C
Noise Rating	55 dBa
Line Length	3 m (Additional 6 m)
Line Diameter	305 mm
Tank Capacity	15 Litres
Current	12 A
Power	2500 W
Voltage	240 V
Main Unit Dimensions w x h x d	50 x 125 x 62 cm
Unit Weight	85 kg

SC14 MINI SPOT COOLER PORTABLE EVAPORATIVE COOLER

The SC14 is a unique and versatile unit allowing ducting to be fitted on both cold air and exhaust air outlets at the same time.

This can allow the unit to be situated inside or outside the area you are looking to cool or heat. With an easy clip on grill you can chose which ever option extremely easy.

It is extremely quiet in operation and it will work easily with 6 metres of ducting off either outlet making the SC14 one of the most popular units in the market place.

Features

- Energy class: A/A++
- Heating option
- Twin duct system
- Automatic condensate removal
- High temperature alarm
- 3 Speed fan
- Touch control
- 12 Month warranty

Technical Data

Cooling Capacity	4.1 kW / 14000 Btu/hr
Heating Capacity	4.1 kW / 14000 Btu/hr
Airflow	600 cm/hr
Suitable Area	40 m ²
Operating Range	16 - 40°C
Noise Rating	52 dBa
Hose Length	1.4 m (Optional 6 m)
Hose Diameter	150 mm
Current	7.6 A
Power	1700 W
Voltage	240 V
Main Unit Dimensions w x h x d	30 x 74 x 48 cm
Unit Weight	30.5 kg
