

The worthy successor of the academy awarded Optimo 15-40 & 28-76

# OPTIMO ULTRA COMPACT

# The second generation of Optimo

The Optimo Ultra Compact lenses replace the famous academy awarded Optimo 15-40 and 28-76 lenses which have been the faithful companions of Directors of Photography for more than 15 years.

This new generation of high-end lenses is fully designed for the FF/VV format. Lightweight and compact, these lenses are among the lightest on the market. Thought for users, these lenses are the perfect addition to the Angénieux high-end Full Frame collection which already included the Optimo Ultra 12X and the Optimo Prime Series.
