

REINVENT HOW THE WORLD CLEANS

T16

Battery-powered rider scrubber-dryer

Lower your cost of ownership, using innovative cleaning technology that is versatile and easy to maintain - the T16 has it all!

Available technologies

-  ec-H2O™ technology with Severe Environment™ switch
-  Detergent metering
-  IRIS® Fleet Manager
-  ES® Extended Scrubbing
-  Blue spot light for enhanced safety

Engineered for **Productivity**

1. Optional scrubbing side brush provides a 1.145 mm scrub path, and a large 190 l solution tank is engineered for maximum cleaning performance and productivity.

2. Easy to identify maintenance Touch Points ensure daily maintenance items are checked and your investment is properly maintained and protected.

3. Touch-N-Go™ Control Module with 1-Step™ start button – enhance safety with intuitive controls located right in front of the operator, eliminating the need to remove hands from the steering wheel to change scrub settings.

4. Reduce repair costs and protect the rear squeegee when backing up with the optional rear squeegee protection kit.

Optional Accessories

Bring high performance spill recovery to hard to reach areas with the optional in-line telescoping vac wand.

Protect operators from falling objects with the optional overhead guard.

Protect the T16 from contact damage with the optional front bumper.

Inside the T16

1. Keep the operator compartment neat and tidy to achieve new levels of productivity. The side cargo net and removable tool caddy help the operator stay organized and keep the compartment free of debris.

2. Extend component life and reduce maintenance cost with the AC brushless propelling motor that operates more efficiently than traditional DC motors.

3. Improve cleaning results by equipping the T16 with a cylindrical or a disc head and modifying the down pressure that suits the application.

4. Reduce operating costs with robust machine construction that stands up to severe environments, but is also designed to prevent damage to walls and fragile fixtures.

5. Reduce slip/fall and maintenance costs with the Dura-Trak™ parabolic squeegee system that provides excellent water recovery and can be changed easily without tools.

T16 specifications

CLEANING SYSTEM

Scrub Path (standard) with Scrubbing Side Brush	910 mm 1.145 mm
Disk brush speed	300 rpm
Disk brush down force (up to)	114 kg
Cylindrical brush speed	500 rpm
Cylindrical brush down force (up to)	91 kg
Solution tank	190 l
Solution capacity (ES®)	280 l
Recovery tank	225 l
Vacuum fan speed water lift	0,56 kW 14.000 rpm 1.650 mm

PROPELLING SYSTEM

Propel speed forward (variable to) Propel speed reverse (variable to)	9 km/h 4 km/h
Gradeability (transport at gross weight) working (scrubbing)	8° / 14,1% 4° / 7%

BATTERY SELECTIONS

Battery optional packages	Wet 240 AH Wet 320 AH Gel 220 AH
---------------------------	--------------------------------------

MACHINE SPECIFICATIONS

Length basic machine	1.880 mm
Width, body	1.040 mm
Height (top of steering wheel)	1.475 mm
With overhead guard	2.080 mm
Weight empty (no battery)	500 kg
Minimum aisle turn	2.110 mm
Sound level (Disk) (Cylindrical)	62 dBA 62 dBA
Sound pressure level tested per ISO 11201 as recommended by the AACEM and OSHA

Tennant – Reinvent how the world cleans

With a vision to become a global leader in sustainable cleaning innovation that empowers our customers to create a cleaner, safer and healthier world, Tennant creates solutions that are changing the way the world cleans.

We are where you are

Tennant has the industry's largest direct sales and service organization and a well-supported network of authorized distributors worldwide.

Solutions for your unique needs

Whatever your cleaning needs, Tennant offers a variety of high quality equipment to help you increase your cleaning productivity.

Buying, leasing, renting

We offer flexible options to get you the machines you need, however you need them.

TennantTrue®

Optimize equipment performance and protect your investment with TennantTrue® parts and service.
