

CREATING A CLEANER, SAFER, HEALTHIER WORLD.

EQUIPMENT

# Scrubber

Performance of a scrubber with the mobility of a mop

# Change the way you think about cleaning... **meet the i-mop**

Over 70% of floors are still cleaned with a mop & bucket. It is time think differently about cleaning. Mop & buckets are highly maneuverable however they have many issues:

- Extremely labor intensive
- Primarily spread dirt around instead of removing
- Pose slip & fall risks due to wet floors

**The patented i-mop combines the maneuverability of the mop with the performance of a traditional scrubber. The i-mop:**

- greatly reduces labor costs, up to 10 times faster than a mop & bucket
- dramatically reduces water & chemical consumption
- delivers extremely clean floors with high mechanical agitation
- leaves nearly instantaneous dry floors with water recovery

**The i-mop was designed to:**

- work in tight spaces and underneath obstacles with its 360 degree handle
- have unlimited mobility with a foldable scrub deck & transport wheels, light enough to pick up
- be simple with easy & intuitive controls for first time scrubber operators

## Dual, counter rotating brushes

### **Twin Brushes**

Counter-rotation of twin brushes pushes solution toward center, rather than splashing off to the side of the machine.

### **Unique Brush Design**

Channels that constantly push solution towards – not away from center. Plus, concentrically stepped bristles trap fluid and prevent splashing.

### **Squeegee System Design**

Placement of squeegee under weight of equipment creates pressure against uneven floor surfaces for better fluid recapture.

### **Squeegee Location**

Location of squeegee immediately behind brushes (vs. behind wheels) retrieves fluid before its fans out to sides.

### Simple, intuitive controls

Obvious operation – easy to train

### Easy swivel operation – even with one hand

No balancing act, pushing or straining— as easy to operate as a mop

### Detachable tanks for cleaning solution & recovery water

Easy to replace or change clean solution on the fly, easy to empty recovery water in any sink, virtually no down time

### Heavy-duty hinge for 360° steering

Highly maneuverable in small spaces around obstacles and under furniture

### Rechargeable modular battery packs

Continuous run-time by swapping out and recharging with an extra set of batteries

### Powerful 350 RPM motors

Up to twice the speed of many conventional disk scrubbers

### Easy transport wheels

Easily transportable between different areas, levels and buildings

### Full-size heavy-duty deck

High productivity – cleans & dries 1,000 sq ft of obstructed space in less than 5 minutes

### Low profile & folding design

Fits under furniture and counters and gets into tight spaces. Deck folds for narrow storage.

# i-mop XL SCRUBBER

## BATTERY

	METRIC	US STANDARD
1-hour operation time	Lithium-ion (2) 25.2 V, 8.8 Ah	Lithium-ion (2) 25.2 V, 8.8 Ah
Charging time 1 hour	80% charged/up to 60 min	80% charged/up to 60 min
Charging time 5 hours	100% fully charged/up to 70 min	100% fully charged/up to 70 min

## MACHINE SPECIFICATIONS

	METRIC	US STANDARD
Operational width	46 cm	18.1"
Theoretical performance	1,800 m <sup>2</sup> /hour	19,375 sq ft/hour
Practical performance	1,000 - 1,300 m <sup>2</sup> /hour	10,000 - 14,000 sq ft/hour
Power rating	700 W	700 W
Clean watertank	4 L	1 Gallon
Recovery watertank	8 L	2 Gallon
Brush pressure	22.5 kg	49.6 lbs
Weight without - with batteries	18.5 - 22.5 kg	40.8 - 49.6 lbs
Weight with battery + water	25.9 kg	57.1 lbs
H x W x D i-mop	120 cm x 50 cm x 38 cm	47.3" x 19.7" x 15"
H x W x D box	126 cm x 57 cm x 37 cm	49.6" x 22.4" x 14.6"

## Applications

- Small Spaces
- Obstructed Spaces
- Critical Spaces

### tanks

Extra quick-connect color-coded tanks for multiple cleaning solutions can be carried.

### pads

A full range of pads to handle a wide variety of soil types, floor types and cleaning applications.

### batteries & chargers

i-mop's lightweight lithium-ion batteries are part of the technology that makes i-mop small enough to get in small spaces and be easily transportable up and down stairs and in a car. Extra batteries allow the i-mop to run 24/7. Optional wall chargers are available.

### brushes & collars

A variety of brushes are available for your i-mop, including soft, medium, and hard bristles. Color-coded brush collars in HACCP colors are also available.
