

Elite 110v Typhoon Industrial Cooling Fan Sales Specification Sheet

Description:

The Elite Typhoon 600MM 110v cooling fan is a large capacity fan used for cooling large areas such as factory's, workshops and warehouses.

The main body of the fan is manufactured using a roto-moulding plastic construction, It allows for higher levels of endurance during extreme temperatures and rough impact over traditional thin metal drum fans. The HDPE construction boasts outstanding durability built to withstand the dust and debris in harsh environments for many years.

Designed with the mains cable storage and a recessed control panel allows for the unit to be easily stacked during use, transportation, and storage. The four rubber wheels and integral grab handle make transport and repositioning easy.

Units can be quickly connected together to offer increased airflow if required. The powerful aluminum fan blades and industrial molded body is built to last for years with proper maintenance and regular cleaning.

Product Code: T250110

Specification:

- Power Supply: 110v 50Hz
- Input Plug: 110v 16amp
- Maximum Air Flow: 9700m³/h
- Fan Speeds: 3
- Maximum Power Consumption: 157w
- Fan Blade Diameter: 60cm (24")
- Dimensions: 69 x 25 x 71cm (LxWxH)
- Weight: 16kg
