RAPID **Climate Control**

Portable Air Movement

A stylish and powerful fan

MB50

Powerful air movement creating a cool, comfortable environment in any application

Introduction

A powerful air movement fan designed to meet the needs of industrial, commercial, retail and leisure applications. From a gentle breeze to a powerful surge of cool air, the MB50 will provide instant, controllable air movement wherever it is needed. The MB50 is available in 230v and 110v models.

Operation

Portable and free standing with easy carry handles. A simple adjustment can be made to give directional airflow both vertically and horizontally for maximum efficiency and flexibility.

Key Features

- **Rugged, durable construction**
- **Variable airflow speed control**
- **Directional adjustment**
- **Easily portable**
- **Quick Connector**
- **Free standing with easy carry handles**
- **Easy to maintain**
- **Low running costs**
- **Ready to use**

Technical Specifications

MB50

Maximum Airflow	CFM	6500
Dehumidifier	M ³ /hr	10050
Power Requirements	Volts	230 / 110
	Hz	50 / 50
Power Consumption	Watts	550 - 600
Max Fan Speed	RPM	1350
Weight	Kg	17
Blade Size	mm	500
Measures (H x W x D)	mm	625 x 550 x 225

Tested to EN14511
