

PRODUCT INFORMATION

Brolin BR18P 18,000btu

Large capacity portable air conditioning unit for domestic, office and commercial spaces up to 70 square meters*.

This ruggedly built compact, quiet, lightweight and energy efficient portable air conditioner is designed and manufactured to the highest standard and has four functions:

- Air conditioning
- Heating
- Dehumidification
- Spot cooling

The BR18P is fantastic 2018 addition to the BROLIN range of appliances. At 5,3kw of cooling and heating output it is the largest compact portable unit available in the UK for more heavy duty applications. Made with durability in mind you get an idea of the build quality out of the box. Quite typical of a portable aircon unit of this size it is effective for spaces up to around 130 cubic meters (medium room size), and needs to be positioned where the exhaust hose can be routed outside. There is a window kit included in the box for added convenience.

The digital panel and associated remote control allow the unit to be set to your desired temperature. Very intuitive for ease of use and is ideal for offices, small server rooms, small conservatories, and general domestic use.

Features:

- Innovative design
- Spot cooling effective in large areas
- Remote control for your convenience
- Low minimum noise levels less than 50 d(B)A
- LED display
- Temperature regulation key
- 24 hour programmable timer
- Sleep control function
- Powerful cooling and heating
- 17-30 degrees celsius heating and cooling range
- Self-evaporating system for condensing water
- 3 ventilator stages
- Exhaust air hose can be integrated into the appliance for storage
- Adjustable air outlet
- Compact design
- Strong air flow: 6-8 meters
- Super strong dehumidification function: ideal for domestic, commercial and industrial applications

Model	BR18P
Function	Cooling + Heating
Cooling capacity (BTU)	18000
Power Supply	220-240V/50Hz
Refrigerant	R290
Rated input (cooling)	2000
Moisture Removal	52.8 L/DAY
Air Volume	680m ³ /h
Noise Level (low - high)	48dBA - 65dBA
Unit Size	440*335*715mm
Box Size	480*375*885mm
Net / Gross Weight (kg)	30/32
Application Area (m ²)	140 m ²
Controls	Electronic control
Plug	13amp 3 pin with a 1.8m cord

*assuming around a 2.2m ceiling height.
