

## Ride-On 5700 Floor Scraper

Product Code: 031130

Ride-on battery powered floor stripper that can be used for an average 8-hour day without the need to recharge.

It can be fitted with a variety of blades up to 380mm wide and features hydraulic steering with a zero turning radius. It is capable of taking on heavy-duty work including stripping ceramics, glued hardwood, vinyl tiling, carpet and epoxy. It is designed to cover bigger areas in less time and is compact enough to fit in most elevators and through standard doorways. It features a versatile charging system, automatic kill switch for safety and non-marking tyres.

### Features & Benefits:

- Larger/deepened forklift pockets
- Automatic kill switch is triggered when the operator seat is vacant
- Quick-change swivel head blade holder
- Ergonomic design includes movable foot pegs, taller handles, and an adjustable seat
- Hinged hood system for easy access maintenance
- Compact design fits through standard door frames and elevator doors
- LED light for increased visibility
- Precise hydraulic steering for manoeuvring in tight spaces, zero turn radius
- Non-marking tyres

### Specification:

Make	National Flooring Equipment
Model	5700
Height	1270mm
Width	620mm
Length	1600mm
Weight	1091kg
Speed	36.6m/min
Voltage	110v
