

Ride-On 8000 Floor Scraper

Product Code: 031131

This 2,989-pound scraper rivals other manufacturers' heavier machines.

Different from scrapers that are powered using a hydrostat driver system, the 8000 offers the speed and power of propane while also combining patented carbide angle-shank technology with the added efficiency of dual-lift hydraulic slide plates. Consistent torque sets the operational standard for high removal rates and each machine undergoes a rigorous quality assurance program including emissions certification.

Features & Benefits:

- Automatic kill switch is triggered when the operator seat is vacant
- Quick-change swivel head blade holder
- Front debris deflector protects machine from loose material
- Precise hydraulic steering for manoeuvring in tight spaces, zero turn radius and continuous torque for higher removal rates and greater productivity
- Ergonomic design includes movable foot pegs, taller handles and an adjustable seat that allows for optimal operator comfort and the best possible line of sight
- Liquid-cooled Kawasaki engine is re-engineered with National's exclusive catalytic design for the industry's lowest emissions
- Dual-lift, hydraulic slide plate adjusts blade pitch and angle for continuous contact with the floor

Specification:

Make	National Flooring Equipment
Model	8000
Height	1660mm
Width	760mm
Length	1600mm
Weight	1344kg
RPM	2950
Speed	61m/min

Sunbelt Rentals Flooring Solutions stock a wide range of cleaning chemicals and solutions to support every requirement.
