

ROGRIND**13.49 E³****Hybrid Rail Head Profile Grinding Machine**

ONE MACHINE. TWO MODULES.

Simple ergonomic grinding.

ROGRIND 13.49 – 8499900003
ROPOWER 70.02 – 5029900002
Outtrigger – 8490800002

THE ADVANTAGES. YOUR BENEFITS.

Precisely ground face in a short time

- Faster working due to constantly high grinding power
- High grinding quality and clear view of the grinding area due to
- Patented ROBEL finish-grinding procedure for localised away from the operator reworking

Intelligent use of energy

- Loss-free energy conversion from electric motor straight to grinding spindle
- ROBEL supercap in power pack: Excess energy stored during idling of grindstone – released during load peaks
- Other drive versions (battery, power supply) available

Smart positioning, smooth grinding

- Easily transport grinding unit and power pack separately
- Effortless operation due to split machine weight of less than 60 kg each
- Comfortable handling of machine due to ergonomic telescopic handles which are individually adjustable

Greater work safety, higher efficiency

- Low hand-arm vibration
- Optimum view of the display at an ergonomic angle of the compact, low-vibration electric motor
- Integrated dust and spark protection due to air exhausted
- Work at a safe distance from exhaust gases, heat and engine noise
