

SMART TORQUE® 330

Connecting wirelessly to both Android and Apple smartphones, the SMART Torque® wrench can accurately log the force applied to a bolt. Perfect for the installation of mechanical fittings or vehicle and plant servicing.

Using the Sunbelt Rentals SmartSite app, the user can combine accurate torque force data with geo-logging images, sequencing assistance and job specific details to create a catalogue of information. This is ideal for assuring the quality of work completed.

Features

- Results are time and date stamped for traceability
- Two full colour OLED displays positioned at 90 degrees for great visibility
- Colour indicator on display changes when target torque/angle has been reached
- Audible and vibration feedback when set target of torque/angle has been reached
- Torque calibration in both Clockwise and Anti-clockwise direction
- Ability to set a Torque, Angle and Final Torque Target
- Create a report from stored results
- Supplied with a Calibration Certificate, which meets the requirements of ISO 6789-2:2017

Technical Data

Operates between	33.00 - 330.00 nm
Length	808 mm
Square Size	1/2"
Weight	1.89 kg
±1% accuracy between 20 and 100% of wrench operating capacity	
±2% accuracy between 10 and 19% of wrench operating capacity	
Estimated Net Weight	4.7 kg
Estimated Gross Weight	5 kg
Estimated Dimensions	1000 (W) x 150 (H) x 13 (D)
