

Grip Trix Shadow Tracker

A four wheel drive, battery powered camera dolly perfect for on or off road camera tracking.

- Ideal for Steadicam, stabilised remote heads, mid-sized telescopic cranes and jib arms including the Alpha Jib
- The 4 wheel independent airbag suspension, balances the load and maintains a level surface
- Seats four passengers with seat belts. Seats can be rearranged
- Can also be used in non-tracking shots as a base for a camera crane so it can be instantly moved around as and when needed without timely delays
- Covered with aluminium cheese plate, drilled with 10mm holes (1" on centred) to allow for infinite rigging possibilities
- Fitted with multiple state-of-the-art, lithium batteries to produce 100% power for extended periods
- Fitted with a 3kw inverter offering power to auxiliary equipment such as remote heads, lighting and cameras

Grip Trix Shadow Tracker Accessories

- Alpha Post Mount
- Vertical Shock Absorbers
- Walk around platform
