

## MV-AGS-230

This Angle Grinder Dust Shroud from MAXVAC is a **small investment that is guaranteed to have a big impact**, boasting virtually **100% dust extraction** from the source.

### Built For Ultimate Ease and Perfect Visibility

Designed by a tradesperson for tradespeople, the idea of this shroud was born after its designer was tired of using other brands' clunky and awkward shrouds that encased the whole grinder and made it hard to see exactly where he was making the cuts.

This grinder shroud's **unique and patented design**, however, is extremely **robust and lightweight**, with an **ergonomic handle** for added grip and stability.

Built for **maximum visibility**, this one-of-a-kind dust shroud allows you to fully see the blade whilst attached, making it easy to **achieve perfectly precise cuts** using the entire blade depth.

To help visibility further, using this shroud also means you won't have to keep stopping what you're doing waiting for the dust to clear. Less dust also means a lot less clean-up for you after as well!

So, by investing in this shroud, you'll be able to cut with extra precision and no dust clouds whilst saving time overall.

### Grinder Shroud with Universal Fit

This Dusttool shroud is **compatible with 180mm (7") & 230mm (9") angle grinders** when fitted with the included adapter ring; the only exception are grinders using an X-Lock system.

Compatible brands include:

- Aimsak
- Berner
- Bosch
- Dewalt
- Eibenstock
- Fein
- Festool
- Flex
- HiKOKI
- Hilti
- Hitachi
- Keyang
- Makita
- Metabo
- Milwaukee
- Panasonic

- Protool
- Sparky
- Spit
- Würth

This MAXVAC dust shroud also **includes a grinder vacuum attachment**, allowing it to be easily fitted to all brands of suitable industrial vacuum cleaners. The HSE recommend that vacuums with M-class filtration are used as a minimum requirement. For the ideal dust extraction pairing, [click here](#) to see our selection of high-quality M-class industrial vacuums for sale.

## Why Invest in a Dust Shroud?

Every year in Britain, **12,000 people die from lung diseases** linked to past workplace exposure to hazardous substances, including dangerous dust. Each and every death in this statistic was **entirely preventable** should their risk exposure have been effectively controlled.

## Become Health and Safety Compliant

This angle grinder shroud can **easily clip on to your grinder to remove killer dust from the source** before it gets a chance to become airborne.

When paired with a suitable vacuum, this shroud will remove even the most dangerous types of dust (even very fine silica dust!) to **protect you and your staff from developing lung disease**.

## 5 Year Warranty

For complete peace of mind, this angle grinder dust shroud comes with a **5-year warranty**. We also have a full stock of **spare parts** to keep your shroud performing perfectly for years to come.

Also, because we want you to be **entirely satisfied** with your brand-new dust shroud, we offer a **30-day no quibble money back guarantee**. This will allow you to physically see and trial this grinder shroud in the comfort of your own home or workplace. That's how confident we are that you'll love our products!

## Don't Just Take Our Word for It...

With a near-**5\* rating**, as well as our no-quibble guarantee, why not give it a try?

"If you want to keep employees and clients safe from dust this is definitely the product to buy."

"Really pleased with the visibility and extraction of the MAXVAC shroud. Definitely paid for itself many times over in happy customers in dust-free projects."

"Easy to install and brilliant to use."

## At a Glance
