

DRILLING SHROUDS

FEATURES & BENEFITS

- Lightweight & durable
- Quick and easy to attach
- Stays in place by suction
- Prevents mess and clean up work
- Compatible with professional vacuums
- Enables Faster drilling
- Longer lifespan for tools

COLLECTS DUST AT SOURCE. THE PERFECT ATTACHMENT FOR MASONRY DRILLING.

The Drilling shrouds are designed to make dust free drilling simple and easy. When connected to any suitable M class vacuum they will extract the dust from the hole being drilled giving not only dust free drilling but a longer Diamond/Drill bit life and a faster drill. The shrouds have a vacuum chamber which enables them to hold themselves to the wall and you to drill using both hands.

Parts available separately.
